

Born to Sit

Storyline:

Raising chicks on Colorbox Farm has always been somewhat unconventional. Aside from some pretty unusual places, it seems they sometimes use the "tag-team" approach to nesting! Some prefer to merely lay the eggs, in one case leaving a single little banty hen to try to sit on 56 eggs! Others definitely prefer to sit, like the hen who forced a mallard hen off her nest and proceeded to hatch ducklings - only to turn them over to the mother duck and continue sitting on the second nest the mallard had been forced to restart!

Lesson:

Everyone has preferences of what they do and don't like to do. God has given each one of us talents or gifts and we should use them for the glory of God.

"We have different gifts, according to the grace given us."
